PROJECTS

Dev-X

Technologies used-[html, Css]

A smart, student-focused interview preparation tracker platform that helps learners plan topics, solve coding problems daily, take mock interviews, and track their resume building.

HTML Form Layouts

Technologies used-[HTML5]

Built various structured HTML forms including login, registration, and contact forms using semantic elements and responsive styling.

Snake game:

Technologies used-[HTML5,CSS3,JAVASCRIPT]

Developed a classic Snake Game using HTML, CSS, and JavaScript. Implemented game logic including snake movement, food generation, collision detection, and scoring. Enhanced user experience with responsive design and smooth keyboard controls.

Tic tac toe game:

Technologies used-[HTML5,CSS3,JAVASCRIPT]

Built an interactive Tic Tac Toe game using HTML, CSS, and JavaScript. Implemented game logic for player turns, win/draw conditions, and real-time UI updates. Designed a clean interface with responsive layout and replay functionality.
